Rule making related to child abuse mandatory reporter training for child care providers

The Human Services Department hereby amends Chapter 109, “Child Care Centers,” Chapter 110, “Child Development Homes,” and Chapter 120, “Child Care Homes,” Iowa Administrative Code.

Legal Authority for Rule Making

This rule making is adopted under the authority provided in Iowa Code section 237A.12.

State or Federal Law Implemented

This rule making implements, in whole or in part, 2019 Iowa Acts, House File 731.

Purpose and Summary

These amendments change child abuse mandatory reporter training requirements for child care providers from once every five years to once every three years with modified expectations. The amendments remove the five-year requirement and state that certification must be maintained. Additionally, the amendments require all child care providers to participate in minimum health and safety training as a preservice or orientation requirement. The requirement for child care providers to take preservice training every five years without training credit is removed. Child care providers will be able to continue their professional development requirements without repeating the same training and may also receive credit for the training taken.

Public Comment and Changes to Rule Making

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on August 14, 2019, as **ARC 4602C**. No public comments were received. No changes from the Notice have been made.

Adoption of Rule Making

This rule making was adopted by the Council on Human Services on October 9, 2019.

Fiscal Impact

No fiscal impact is anticipated because the Department will continue to contract with agencies to provide the necessary provider training. Each child care provider will determine the provider’s own ongoing professional development needs while maintaining the minimum hour and content requirements identified in the rules.

Jobs Impact

This rule making will reduce the financial burden to child care providers who would have previously been required to take 12 hours of mandated orientation/preservice professional development without receiving training credit. Child care providers will take minimum hour and content area requirements and approved training will count toward the minimum requirements.

Waivers

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 441—1.8(17A,217).

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rule making will become effective on December 11, 2019.
